

ELECTRIC HEATER PLASTIC 3-18 kW

141601

Pahlén electric heaters 3-18kW made of plastic are designed for a continuous flow with the lowest possible pressure loss. The compact design enables installation where there is little space. The outer jacket and the junction box are made of plastic and the heating element is made of Incoloy 825. The heater is supplied with union couplings for adhesive bonding of Ø50 mm pipes. All heaters are equipped with thermostat, high limit control and flow switch.
